

DUBAI CONFERENCE ANNOUNCEMENT

Emerging Research Paradigms In Business and Social Science

Venue

Pullman Hotel
Mall of the Emirates,
Dubai, UAE

Dates

22-24 November 2011

Middlesex University Dubai is delighted to announce their first international conference in 2011. We look forward to welcoming you to Dubai and the UAE for an exciting programme of academic interaction and Arabian cultural experience

Brief

The objective of this conference is to provide an opportunity for academics to discuss new concepts, progressive methodologies, embryonic approaches and innovative practices within the world of business and the wider social environment. Given that social enquiry is still a maturing field of educational study within this region, it is crucial that business systems, processes and structures are considered in conjunction with contributions from such contemporary fields of social enquiry as knowledge management, media studies, psychology, sociology and tourism education. This is indeed pertinent for understanding service sector economies and societies, as well as comprehending the future role of education as a strategy and contributor to a sustainable learning culture and environment.

Call for Papers

Original research papers dealing with the subjects mentioned below are invited. Please note that the topics listed under each track are to be interpreted broadly and the list is only indicative. Papers dealing with methodological issues are particularly welcome. All abstracts and full papers will be double-blind reviewed by experts in the relevant fields.

- Business and Management
- Education
- Information and Knowledge Management
- Psychology and Sociology
- Media Studies
- Tourism and Hospitality
