Kongress mit begleitender Ausstellung und Workshops für vernetztes Leben

Köln, 26. – 28. Juni 2012

## – CALL FOR PAPERS – ConLife 2012 Academic Conference

**NEW DEADLINE: 6th of May.**

**We apologize for a malfunction of the former submission mail address. If you did not receive a confirmation mail, please resubmit. Thank you for your understanding.**

### Conference topic

**Business Models, Standardization and Technologies for the Connected Life**

### Overview

Convergent services are developing in the smart home, smart energy, e-mobility or ambient assisted living forming the Connected Life. The conference focuses therefore areas within the Connected Life consisting of:

- Business Models
- Interoperability
- Regulation
- Standardization
- Digital preservation/lock-in effects
- Legal compliance and privacy
- Security and trust
- Transparency

A special track will focus Cloud Computing evolving as a paradigm shifting technology. Submissions are welcome from business management or business engineering, computer sciences, economics, or electrical engineering and other sciences related to the Connected Life.

### Publication

Conference proceedings will be published. The scientific organizers are planning a publication in a special journal edition.

### Submission Deadlines:

Abstracts are due to **6th May 2012** via the online submission form at [www.conlife.de](http://www.conlife.de) (Der Kongress -> Academic).

An e-mail can be sent to [conlifeacademic@gmail.com](mailto:conlifeacademic@gmail.com) optionally. Participants will be informed about acceptance in May 2012. For accepted papers, the full version is due until June 11th.

### Scientific Organization Team

Nico Grove (Bauhaus University Weimar), Dieter Klumpp (Alcatel-Lucent Stiftung für Kommunikationsforschung), Helmut Krcmar (TUM), Arnold Picot (LMU), Ali Sunyaev (University of Cologne), Daniel Veit (University of Mannheim)
