01. Sustainable Computing
02. Computing for Sustainability
03. Energy-efficient (Green) Computing
04. Energy-efficient (Green) Communications
05. Sustainable Service Computing and Management
06. Sustainable ICT
07. Sustainable Engineering: Systems Design & Development, and Applications (in Civil / Electrical / Electronics / Communication / Mechanical / Chemical / Mining / Computing / Informatics / Automation and other allied disciplines)
08. Green / Energy-efficient Engineering
09. Cloud Computing
10. Management of Data including Big Data and Analytics
11. Information and Knowledge Management
12. Social Networks and Social aspects of Sustainable Development
13. Information and Cyber Security
14. Sustainable Future

Accepted and presented
papers will be published in
the IEEE Xplore Digital
Library

All Registered participants will be given a complementary copy of the book titled "Harnessing Green IT: Principles and Practices", Edited by San Murugesan and G.R.Gangadharan, published by IEEE Computer Society, and reprinted in India by Wiley.
