Covenant University
3rd International Conference on African Development Issues 2016 (CU-ICADI 2016)
Call for Participation

Esteemed Colleague,

It gives me great pleasure inviting you to consider participating through the submission of your current research findings in the 3rd Covenant University International Conference on African Development Issues (CU-ICADI, 2016).

Covenant University established the ICADI Conference series as a unique platform for engaging academics, industry technocrats, and policy makers in productive discourse towards value enhancement and capacity development of the African Nation. This third in the series of ICADI conferences aims at expanding the success of the previous two conferences by engaging participants on the Theme:

Driving Inclusive and Sustainable Development in Africa: Models, Methods, and Policies

Accordingly, the third CU-ICADI is designed to cover a wide gamut of topics germane to issues of *sustainability* and *inclusivity* in the development of African nations vis-à-vis the humanities, social sciences and engineering, even as the foundation for the imminent African renaissance is laid. Academic contributions such as *research articles, review papers, concept papers, vision/idea papers, work in progress with partial research results, poster presentations as well as PhD pecha kucha* are welcomed. Papers from the industry presenting *experience reports, company testimonials and reports of best practices implementation* that have yielded positive results are also invited for presentation under a special Industry Track.

As is the custom at ICADI conferences, the 3rd CU-ICADI will feature special keynotes and guest lectures by renowned academics and industry experts including a Nobel Laureate. In addition, there shall be dedicated fora and syndicate sessions that will provide opportunity for all participants to contribute to specific topics on sustainable and inclusive African Development.

For more details on CU-ICADI 2016, please visit the following links:
