*** Call for Papers and Participation***

Submit by September 28, 2016

The AIS Special Interest Group on Information Security and Privacy (SIGSEC) is pleased to announce its seventh annual Workshop on Information Security and Privacy (WISP) to be held pre-ICIS on December 10, in Dublin, Ireland. This workshop is intended to be a forum for scholars, practitioners, and doctoral students interested in information security and privacy to exchange ideas and encourage collaboration among the members of the SIGSEC community and others. We invite individuals to submit research articles, case studies, position papers, research-in-progress, and panel discussion proposals that address all interesting aspects of information security, assurance and privacy, including but not limited to:

- ✓ Socio-technical analysis of information security and privacy issues
- ✓ Cultural issues in management of information security and privacy
- ✓ IT risk analysis and management issues
- ✓ Economic analysis of information security strategies and privacy measures
- ✓ Behavioral and cognitive research into security design, development, implementation, and use
- ✓ Compliance with information security and privacy policies, procedures, and regulations
- ✓ Strategies for decreasing risky habits and behaviors
- ✓ Analysis of system vulnerabilities and risk exposure
- ✓ Data analytics of system vulnerabilities and information security breaches
- ✓ Protection of organizational knowledge and proprietary data
- ✓ Simulation of information security and risk management
- ✓ Management of electronic espionage and technological crime

- ✓ Cases in infrastructure protection
- ✓ Forensic analysis issues
- ✓ Issues of employees' and users' surveillance
- ✓ Issues of information security and privacy in e-government technologies
- ✓ Information security and privacy issues in social networking tools
- ✓ Legal, societal, and ethical issues in high technology crime
- ✓ Cybersecurity skills
- ✓ Issues of information security and privacy education
- ✓ Issues of information security and privacy issues in online communities
- ✓ Ensuring efficacy of operations for high integrity
- ✓ Information security and privacy issues in e-learning systems

All submitted papers undergo a double blind peer-review process. Selected papers will be fast tracked to the *Journal of Information System Security*. Please submit your papers using our conference submission system located at http://www.oru.se/wisp2016.

All submission should use Microsoft Word format only, with no author names or other identification in the manuscript file, including document properties, and tracked changes (blind the submission, please). Please use *MISQ* style for your paper and references (See http://www.misq.org/manuscript-guidelines/). Completed research and case study papers should be limited to 15 pages. Research-in-progress papers should be limited to seven pages. Panel proposals should be limited to three pages. All manuscripts should be formatted to double-spaced, left-justified with 12-point Times New Roman font.
