

University of Colorado Denver
Assistant Professor of Information Systems
The Business School Job Posting #11815

The Information Systems Program <https://goo.gl/yoGuwg> at the Business School (<https://goo.gl/sn6Mx4>) University of Colorado Denver (<https://goo.gl/H4afAH>) invites applications for an Assistant Professor of Information Systems with a focus in Cyber Security and Web and Mobile Application Development. This is a tenure-track position. Candidates must possess a Ph.D. in Information Systems or related fields upon starting the position or be able to present proof that they are on target to complete the requirements for their Ph.D. by December 2018. The position will begin August 2018. The position consists of 40% teaching, 40% research and 20% service. The individual will also be expected to collaborate with doctoral students and other faculty in the department. All applicants must have the expertise for both high-quality teaching and high-quality academic research, and be willing to support the IS program and its initiatives.

Teaching: the normal teaching load consists of 4 courses (3 hours each) during a 9-month contract period. The individual will be expected to teach Information Systems (IS) courses at the Undergraduate, Masters, and Ph.D. levels.

Research: We seek scholars who can produce research of excellent quality. The individual is expected to engage in scholarly research, and collaborate with doctoral students and other faculty in the department, and have the expertise in doing research in cybersecurity-related topics, and publish articles in A-level IS journals.

The University of Colorado Denver is committed to recruiting and supporting a diverse student body, faculty and administrative staff. The university strives to promote a culture of inclusiveness, respect, communication, and understanding. CU Denver's location in downtown Denver attracts a diverse population, many of whom are non-traditional students. This diversity is enriched by our commitment to a philosophy of inclusion, embedded in all aspects of campus life from its community members, curriculum, research and community service, allowing for the creation of a learning environment that welcomes, embraces, sustains and celebrates the unique and shared experiences of faculty, staff, and students. The Downtown Denver Campus serves approximately 23,000 students, whose average age is 30, over 85% work, and over 44% are graduate students. The Downtown Denver Campus offers 36 undergraduate degrees and 44 master's degrees through the Colleges of Architecture and Planning, Arts and Media, Engineering, and Liberal Arts and Sciences, the Schools of Business, Education and Human Development, and Public Affairs, and offers the Ph.D. in Computer science and Information systems <https://goo.gl/78HcsF> among others.

As one of three institutions within the University of Colorado system, CU Denver is an urban campus located in the heart of the city's commercial, cultural and recreational districts and has proudly positioned itself to be one of the top urban research universities in the country. CU Denver was recently rated by Forbes magazine as the 34th best public university in the nation. The Business School has about 70 full-time faculty, and offers the largest graduate business program in the region with about 1,000 MBA and MS, and Ph.D. students, plus 1,400 undergraduate business students.

About CU Denver

The university is home to Colorado's largest graduate schools for business and education and to the

state's only college of architecture and planning and school of medicine.
