

# CHITA 2022

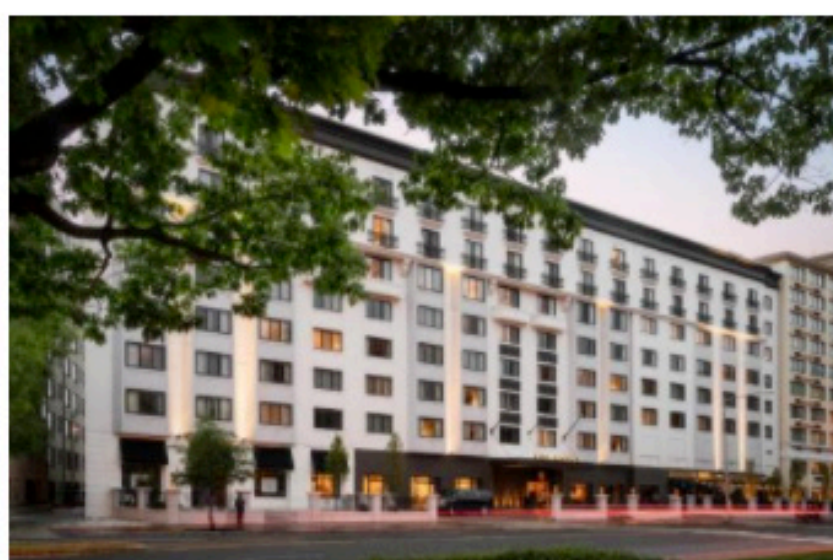

CONFERENCE ON HEALTH IT AND ANALYTICS

MARCH 4-5, 2022

Presented by the Center for Health Information and Decision Systems

**Friday and Saturday, March 4–5, 2022: Conference**  
**Thursday, March 3, 2022: Doctoral Consortium**

## The Darcy Hotel

1515 Rhode Island Ave, N.W.  
Washington, D.C. 20005

**REGISTER**

## Join us for CHITA

We're only weeks away from the Twelfth Annual Conference on Health IT and Analytics (CHITA). This year, the conference will be held in Washington, D.C., the center for health policy debates, on **March 4-5, 2022**, with the pre-conference Doctoral Consortium held on **March 3, 2022**. **CHITA 2022 will be a hybrid event—but we would love to have you there in person!** [Our health and safety protocols may be found here.](#)

**CHITA** is an annual research summit and doctoral consortium that gathers prominent scholars in a multidisciplinary setting. Each year, CHITA attracts researchers, policy makers and clinical leaders from leading institutions and organizations. The conference provides a forum for researchers to disseminate their work and network within a growing and vibrant community. It fosters collaboration between academia, government and industry to bridge research, policy and practice.

## WHY ATTEND?

- **Hear...** from experts in machine learning and AI for health care, health equity, and other emerging healthcare innovation areas.
- **Learn...** the latest findings and practices connected to information technology and data science to make healthcare more patient-centered, equitable, effective and cost-efficient.
- **Network...** with researchers, industry executives and policy makers that are leading healthcare transformation.
- **Discover...** the increasing importance and impact of analytics and health information technology in improving individual and population health.
