

## Call for Book Chapters

**Research Handbook on Information Systems and Society**<https://www.e-elgar.com/seriesinfosystemsociety/>

The published book will be submitted to Scopus, WoS for indexing. No Publication Fee involved.

**About the Handbook:** The motivation of the *Research Handbook on Information Systems and Society* is to provide coverage through the role of Information Systems and Society (ISS) in modern society, trending topics, and theories on ISS with respect to the environment, urban planning, governance, etc. It highlights the impacts of ISS to pinpoint and address potential negative societal impacts such as ethical issues, privacy concerns, inequality, criminal justice, social changes, cyberbullying, fake news, hate speech, etc. In addition, it would provide application domains of ISS such as healthcare, education, workplace dynamics, disaster management, transportation, tourism, entertainment, sports, retail, advertising, supply chain, etc. to name a selected few. Finally, it would develop potential futuristic solutions that could be impactful for forthcoming public policy, smart agriculture, and the next generation.

**Schedule:**

Abstract Submission Deadline:	April	15, 2023
Notify Proposal Acceptance:	May	10, 2023
Full Chapter Submission:	August	15, 2023
Review Results Returned:	October	30, 2023
Final Chapter Submission:	November	15, 2023
Final Acceptance Notification:	December	20, 2023

**Book Editors:****Dr. Arti Jain**

Jaypee Institute of Information Technology, Noida, India

**Prof. John Wang**

Montclair State University, New Jersey, USA

**Dr. Arun Kumar Yadav**

NIT Hamirpur, Himachal Pradesh, India

**Potential Chapter Titles:****Section I: Introduction to ISS**

- ✓ Role of Information Systems in Modern Society
- ✓ Current Hot Topics of ISS
- ✓ New Theories of ISS
- ✓ Information Systems and the Environment
- ✓ Information Systems and Urban Planning
- ✓ Information Systems and Governance

**Section II: Impacts of ISS**

- ✓ Information Systems and Social Change
- ✓ Information Systems and Ethical Issues
- ✓ Information Systems and Privacy Concerns
- ✓ Information Systems and Inequality
- ✓ Information Systems and Criminal Justice Systems
- ✓ Information Systems and Cyberbullying
- ✓ Information Systems and Fake News
- ✓ Information Systems and Hate Speech
- ✓ Information Systems and Cyber-Physical Systems

**Section III: Applications of ISS**

- ✓ Information Systems and Health Care
- ✓ Information Systems and Education
- ✓ Information Systems and Workplace Dynamic
- ✓ Information Systems and Disaster Management
- ✓ Information Systems and Transportation
- ✓ Information Systems and Social-Media
- ✓ Information Systems and Tourism
- ✓ Information Systems and Entertainment
- ✓ Information Systems and Sports
- ✓ Information Systems and Retail
- ✓ Information Systems and Culture
- ✓ Information Systems and Advertising
- ✓ Information Systems and Marketing
- ✓ Information Systems and Customer Relationship Management
- ✓ Information Systems and Supply Chain Management

**Section IV: Futuristic Solutions of ISS**

- ✓ The Future of ISS
- ✓ Information Systems and Forthcoming Public Policy
- ✓ Information Systems and Smart Agriculture
- ✓ Information Systems and Next-Generation Military
- ✓ Information Systems and Sustainability across Globalization

The Book Chapter(s) Should Be Submitted Through
