!New Deadline Extension! July 5 2024

Porto, Portugal, October 29-31, 2024
Hilton Boeira Garden Hotel * * * * *

https://iscsi-conference.org/call-for-papers/

Dear Esteemed Colleagues,

Hello once more from the iSCSi Organizing Committee!

We're excited to announce a **Deadline Extension** (July 5, 2024) for the 2024 iteration of iSCSi - International Conference on Industry Sciences and Computer Sciences Innovation.

Join us at the beautiful **Hilton Boeira Garden Hotel in Porto**, Portugal, from October 29 to 31, 2024, for a deep dive into the latest breakthroughs and advancements in these critical fields.

Expect to mingle with a distinguished gathering of experts from academia, industry, and governmental bodies as we explore topics such as intelligent production systems, automation and control, logistics and supply chain management, sustainable manufacturing, information systems, project management, cybersecurity, data privacy, cloud computing, technology in health and big data analytics.

We are thrilled to announce that **NATO** is now our latest sponsor and will provide one of our keynotes on current technology strategy themes. This keynote will offer valuable insights into the intersection of technology and global security. Share your research, theoretical frameworks, and practical applications through keynote speeches, panel discussions, and technical workshops.

Dive into the future of these disciplines at the conference workshops, "**Emerging Trends in Industry Sciences and Computer Sciences.**" We encourage you to submit your innovative research papers, case studies, and posters.

Your contributions will be published in **Elsevier Procedia Computer Science** and indexed by **Scopus** and **Web of Science**. Don't miss out on this opportunity to be part of the vibrant exchange of ideas at iSCSi 2024.

The new deadline provides additional time to prepare and perfect your submissions. Please save the dates and join us for an intellectually stimulating conference.

Research Awards Ceremony - Sponsored by CNN:

- [The Annual Excellence in Master and Doctoral Research Award](#)

Co-located Workshops:

- [CYBERKNIFE - Information Security & Data Leakage Protection and Prevention](#)
- [UTT - University Technology Transfer of R&D Innovations](#)
- [MIR - Management in Review](#)
- [CODTHT - Communication, Digital Technology in Cultural Heritage & Tourism](#)
- [DCADS - Data Science & Analytics for Decision Support](#)
- [WIA - Industry Applications](#)
