The 20th International Conference on Information Systems Security

December 16—20, 2024
LNMIIT Jaipur, India
https://iciss.isrdc.in @IcissConf

Call for PhD Forum Papers

International Conference on Information and Systems Security (ICISS) is one of the leading conferences on security & privacy. The Tutorial & PhD Forum Co-chairs of the 20th ICISS invite PhD students to present their research covering topics within the scope of ICISS. The PhD Forum will be an excellent venue for PhD students to articulate and present their work-in-progress in a public, encouraging environment to receive constructive feedback. This opportunity to network with established international researchers also helps build a rapport with them and opens up possibilities for collaboration in terms of internships, and post-doctoral fellowships.

The keynote speakers of the conference include **Prof.Ahmad-Reza Sadeghi** (Technical University of Darmstadt), **Prof.Alessandro Mei** (Sapienza University of Rome), **Dr.Anoop Singhal** (NIST, USA), **Dr. Kari Konstiainen** (ETH Zurich, Switzerland), **Prof. Rakesh Agrawal** (Data Insights Laboratories), **Dr. Aanchal Malhotra** (Head of Research at Ripple),**Prof. Pierangela Samarati** (University of Milan), **Prof. Vincenzo Piuri** (University of Milan).

Furthermore, there will be several pre-conference workshops & tutorials lined up such as a pre-conference Winter School on **Security Challenges with GenAI** and a **Hands-on Malware Design and Analysis Tutorial** by **Kaspersky.**

Tutorial & PhD Forum Chairs

Radhika B S	NITK Surathkal, India
Vasudevan AR	NIT Calicut, India

Important Dates (in AoE)

Submission deadline	~~October 10, 2024~~ **October 30, 2024**
Notification by	October 30, 2024
Camera-ready	November 10, 2024

The PhD forum will be conducted in two categories - *Early-stage PhD Students* and *Later-stage PhD Students*. Proposals for both categories must contain a title, author's name & affiliation (and a footnote indicating the year of PhD admission followed by the advisor's name). The submission must be compiled using the LNCS style.

Early-stage PhD Students
Students who are working towards research topic selection will submit (2-pages max.):
- Problem being considered
- Relevance and impact
- Potential approaches
- Poster (36 in x 48 in)
- Presentation (5 minutes)

Later-stage PhD Students
Students who have selected a research topic and have some preliminary insights/results will submit (4-pages max.):
- Problem statement
- State-of-the-art, identified gaps, novelty
- Methodology, early results
- Poster (48 in x 60 in)
- Presentation (10 minutes)

The Poster and the Presentation must be submitted AFTER your PhD Forum submission is reviewed and accepted. A thematic compilation of all presented works will be made available as a technical report.

The authors of the accepted proposals will receive an opportunity to display their posters throughout the conference in order to maximize their interactions with the attendees.

Submission portal:
https://equinocs.springernature.com/service/ICISS2024

Student authors of accepted papers may avail partial travel grants by writing to the PhD Forum Chairs. Under unavoidable circumstances, the authors will be allowed to present their work online.
